Devotees throng Hill Temple

Last Tuesday of Ashada month

Devotees rush at Sri Chamundeshwari Temple and Nandi statue premises atop the Chamundi Hill this morning.

Mysuru, Aug. 3 (MTY&BCT)- Today, Aug. 3 being the last Tuesday of the auspicious month of Ashada, nearly 10,000 devotees thronged Sri Chamundeshwari Temple atop Chamundi Hill in city to have a Darshan of the Goddess.

It is for the first time during this year's Ashada month that such a crowd is being seen as devotee entry has been banned on all Ashada Fridays and weekends. Devotees can visit the Temple only from Monday to Thursday and as such there was heavy rush today.

Aug. 6 will be the last Ashada Friday and the Bheemana Amavasya puja is on Aug. 8, again a Sunday where the entry ban will be enforced. So today was the only auspicious day for the devotees to have a Darshan of the Goddess.

People were seen entering the Hill from all the routes including steps as the Police did not prevent entry unlike the other days when the entry ban was in force. Long queues were seen in the serpentine pathway to the *sanctum sanctorum* and also to the prasadam counters.

Ahead of third wave...

Good response to COWIN-KAR

Download app from Google Playstore or register in *cowin.karnataka.gov.in* website

Mysuru, Aug. 3 (MTY&BCT)- While a large number of people now have immunity against Coronavirus due to previous infections or vaccination, an even larger population in the city needs to be vaccinated.

The State Government's own COWIN-KAR app that has been launched on a pilot basis in Mysuru city limits — for people to register and book their vaccine slots — is receiving good response with many downloads and registrations.

Beneficiaries from all the three Assembly constituencies — Chamaraja, Krishnaraja and Narasimharaja — are downloading the app from Google Playstore or from the *cowin.karnataka.gov.in* website and are registering themselves based on the eligibility criteria fixed by the District Health Department. The COWIN-KAR pilot project was launched on July 26 and after initial glitches, now any resident of Mysuru city can download and register. Registration, however, has not been expanded to other areas beyond city limits.

Property tax rebate extended till Aug.31

Mysuru, Aug. 3 (SBD & DM)- In some relief to taxpayers amid the COVID crisis, the Mysuru City Corporation (MCC) has extended the 5 percent rebate on payment of property tax (2021-22) by one more month. Following the extension, the rebate will now be in force till Aug. 31.

Following the second wave of attack of the deadly COVID-19 pandemic and the subsequent lockdown, the MCC had earlier extended the deadline for 5 percent tax rebate twice in order to enable the citizens make use of this opportunity.

Usually, the 5 percent rebate on property tax payment will be on offer for only a month from Apr. 1 to 30. But due to the pandemic, the MCC, as per Government directions, has extended the deadline to Aug. 31. From Sept.1, the citizens should pay their tax with a 2 percent interest for late payment.

Gold medal and cash prize winners

Sindhu

Siyana

Shrinivasa

Mysuru, Aug. 3- The following students of SBRR Mahajana First Grade College, Jayalakshmipuram, have excelled in the year 2019-20 examinations conducted by University of Mysore by bagging a rich haul of 14 gold medals and 8 cash prizes in all:

Sharman

Vijayalakshmi

Arts - BA: Sindhu Nagaraj (JEE- Journalism, Economics & English Literature)- 7 Gold Medals and 7 Cash Prizes; Siyana Salim (Psychology) - 2 Gold Medals; Shrinivasa (Sociology) - One Gold Medal.

Science - B.Sc: Sharman Kumar Bohra (BtBM) - 3 Gold Medals and 1 Cash Prize and Vijayalakshmi (Computer Science) - 1 Gold Medal.

EDITOR'S BOTTOMLINE

On the 161st Income Tax Day, Finance Minister Nirmala Sitharaman singled out individual taxpayers for praise. She lauded honest taxpayers for their contribution to nation building and said that it needs to be recognised. India has a personal income tax base heavily dependent on the salaried class. Last year, 65.4 million income tax returns were filed, less than 10% of India's adult population. Not all who file returns pay income tax. Evidence suggests that income tax data is not in sync with the pattern of consumption. Salaried individuals bear a disproportionate burden of nation building. I-T authorities make plenty of noises about catching well-heeled non-salaried individuals in the tax net. But the results have been disappointing. Under-declaration of income and over-declaration of expenses are widespread and, somehow, I-T seems unable to consistently track hidden personal income via consumption expenditure. Now that large cash transactions are supposedly considerably fewer than before, this seems even more surprising. The bigger reform is to scrap an income tax code that is a patchwork of incremental changes and lacks overall coherence. Almost two years ago, a task force submitted its report on a new code to replace the existing law. That needs to be unveiled and acted upon soon. — *In The Times of India*

NEWS SPARKLERS

The neon green sulphur pond of New Zealand

Rotorua: New Zealand's Wai-O-Tapu volcanic area offers no shortage of intriguing natural wonders, but perhaps the most eye-catching one is Devil's Bath, a bright green pond full of sulfur-infused stink water.

Devil's Bath gets its color from a combination of hydrogen sulfide gases and ferrous salts. The shade and intensity of the green sludge depends on the inclination of the sun's rays and the amount of minerals present in the water at any given moment, but there's never a day that the green body of water doesn't look weird compared to what you'd expect a pond to look like. And then there is the smell of this charming attraction, which is best described as half sewer, half rotten egg. So yeah, Devil's Bath sounds like an appropriate name...

Devil's Bath is one of the most popular attraction of the Wai-O-Tapu Thermal Wonderland, a geothermal complex about 11 square miles in size. It even has a generous viewing platform which allows visitors to admire its unique color and take in the "charming" smell.

Tree leans when not in its natural habitat

London: Araucaria columnaris, also known as the coral reef araucaria, Cook pine or New Caledonia pine, is a species of conifer native to New Caledonia that tends to tilt sideways when planted outside its natural habitat.

First classified by Johann Reinhold Forster, a botanist accompanying Captain James Cook on his second voyage to circumnavigate the globe as far south as possible, the araucaria columnaris soon became popular all around the world, thanks to its distinctive narrowly conical shape and its height (up to 60 meters) – they lean heavily to one side, and when there are more of them planted in the same area, they all lean in the same direction...

HEALTH CAPSULE

"Many of our elders advise us to eat before around 7 pm in the evening. A similar suggestion is also given by dietitians and nutritionists these days. The reason behind this is that when you have an early dinner, your body gets more time to relax and digest the food you have consumed. This practice can aid weight management. Late eating may also disrupt proper sleep."

Last date for admission to CMA course extended

Mysuru, Aug. 3- The Institute of Cost Accountants of India, Mysuru Chapter, has announced that the last date for admission to Foundation, Intermediate and Final Course of CMA (Cost and Management Accountants) is extended up to Aug.10 for December 2021 term examination.

Interested candidates may contact Mysuru Chapter of The Institute of Cost Accountants of India at # 1420, 7th Cross, Krishnamurthypuram, Mysuru - 570 004 between 10 am and 1 pm on all working days or call Ph: 0821-2331083 or Mob: 99001-11552 or 97317-89222, according to a press release.

REALLY...?

- *Ancient Indians were known to use ink in the 4th century BC — the ink was made from burnt bones, pitch, tar and so on. There is evidence of Chinese ink that dates back to 256BC — some early Chinese inks were made from fish glue.*
- *Ink can be organic or non-organic. Some animals produce ink, for instance, octopuses produce a cloud of ink to deflect predators. Some inks naturally produced by animals have other uses as well. Squid ink is sometimes served as pasta sauce in fine dining restaurants and inks produced by some cephalopods could have medicinal uses a well.*
- *Inks were also made from natural materials such as resin of a pine tree, minerals such as graphite, from soot obtained from burning things.*
- *A single ball point pen can draw a line as long as 4,000 to 7,500 feet.*

VOICE OF THE READER

Is MCC fleecing honest citizens?

Sir,

I had to visit the MCC Zone-4 office last week because of the pandemic shut down as well as not succeeding in paying the tax online. Fortunately, there was not much rush and the officials concerned were very courteous. I got the form printed in a few minutes.

As a safeguard, I had taken about 20% more than the last year's tax amount but when I saw the detailed printed form, I was shocked to see some 65% more than last year's amount!

Considering that last year also the necessary form was automatically generated by the software at the same Zonal Office, I am unable to understand the logic. Anyway I rushed to my bank, collected the necessary amount and duly paid the tax.

Upon scrutiny, I found several inconsistencies. The list is as follows:

1. The estimated market value has been increased by 3.5 times more than that of last year. Normally, half of the market value is used for tax calculation. But it appears that, for 2021-2022 only, instead of half, a quarter of the market value has been used. In spite of this concession, the market value used is almost double than what was used in the last year for calculations. I wonder what my tax would be next year when this additional concession is removed.

2. Though I have not been able to understand their methodology, it appears that the tax on the cost of the building also has gone up. My house is 21-year-old and in the first year I quoted the exact cost of the house. Since then with the depreciation the value of the building should be less than the original cost price. Is the MCC assuming that my building is brand new?

3. I also notice that this year, tax has been levied on vacant land. It is mandatory to leave some vacant space on all four sides. Besides, one needs to have a drive way to bring one's car inside and a car port.

Some environmentally-conscious residents have rain water harvesting which requires some space to place the water tanks, pipes, etc. Also one needs some garden space. While the whole country is crying for more breathing space, greenery and trees, the Mysuru City Corporation seems to have a blind eye on this aspect.

4. Many of us have a small 100 sq.ft room plus a small toilet for the live-in maid servant whose child or children go to the nearby school. The electricity and the water bill for that room are included in my bill. It is a social service provided to the society and tax on that space is improper.

5. I also notice that the Cess of 26% is levied after the tax for vacant land is added. Thus 33% of my total tax is for vacant land. This is completely incorrect.

In spite of all this higher tax, least that the Corporation could do is to maintain good roads, proper rain water drainage and repair of the roads dug for underground disposal water pipes. Also, the officials could increase the percentage of the number of house owners who pay tax by making door-to-door check. Will the MCC officials stop fleecing the honest citizens and pay more attention to the citizen's dire necessities?

Opposition to toilet complex near Ramaswamy Circle

MCC Panel inspects spot; decides to shift place

Mysuru, Aug. 3 (AK)- Following objections from the public over the construction of a toilet complex by the Mysuru City Corporation (MCC) near Ramaswamy Circle, the members of MCC Town Planning Standing Committee (Works Committee), who conducted a spot inspection yesterday, have decided to shift the toilet complex to another spot.

The toilet complex was being constructed by MCC near the traffic signal on JLB Road and Rs. 20 lakh was being spent for the construction. This had invited objections from the public, who said that once the toilet is open for public use, people would park their vehicles on the ever busy road to use the toilet, thus hampering the smooth flow of traffic. Also, the toilet complex so nearby to Ramaswamy Circle will mar the beauty of the road, as Ramaswamy Circle has a great history.

Mysore Grahakara Parishat (MGP) Member K.S. Narasimha Murthy too had expressed displeasure over the toilet complex construction by posting the picture on social media, where he had stated, "Mysuru has its own beauty and has gained many titles such as Heritage City and Cleanest City among others. The MCC, which should work towards protecting the dignity of city, is working towards spoiling the beauty of the city. A public toilet is being constructed near historical Ramaswamy Circle, connecting from JLB Road and Jayalakshmi Vilas Road (Court Road). This is not a good idea, as it will create traffic issues. There is 20-30 feet open space available near Jayalakshmi Vilas Road, I prefer MCC to utilise this place to construct toilet instead of spoiling the beauty of Ramaswamy Circle."

In this backdrop, MCC Works Committee Chairman Sathyaraj, Member B.V. Manjunath, area Corporator Lokesh Piya, Assistant Executive Engineer (UGD Division) Dhanush, Engineer Jagadish, MCC Zone-1 Development Officer Sushruth, Junior Engineer Kiran, Water Inspector Madhu and other officials conducted spot inspection last evening.

Manjunath, speaking to *SOM*, said that there were objections from the public over the construction of the toilet complex adjacent to the footpath. The matter was discussed with Corporator Lokesh Piya and a spot inspection was held. The Corporator has given his consent for shifting the toilet complex.

Manjunath added that Corporator Lokesh has said that the construction of the toilet complex would be shifted to a suitable place which will be 20 feet behind the present spot.

Elected

Mysuru, Aug. 3- **Dr. Ramakrishna Hegde,** Associate Professor, Department of Computer Science and Engineering (CS&E), Vidyavardhaka College of Engineering, Mysuru, has been elected as Secretary of IEEE Computer Society, Bangalore Chapter, which is part of the world's largest technical professional body that exists in more than 150 countries.

Free health camp at Sigma Hospital

The Department of Medicine, Sigma Hospital, Saraswathipuram, conducted a free health camp related to prevention and treatment of metabolic diseases in the hospital premises on Sunday. A total of 225 patients were examined for sugar, BMI, BP, BMD and they were advised regarding further management. Along with diet counselling, the participants were advised regular follow up for diabetic control and prevention of strict diabetic related complications.

NEWS BRIEFS

Drawing contest for I-Day

As part of Independence Day celebration, Brahmibhuta Sri Vasudeva Maharaj Foundation, Mysuru, will be conducting a drawing contest (freedom fighters portrait in line drawing or water colour) for high school students. One student can send only one entry. The painting must be sent to the Foundation office, No. 4, 2nd Main, 11th Cross, Vidyaranyapuram, Mysuru-08, before Aug. 10. Entries can also be sent via e-mail: *svmfoundation2009@gmail.com*. There is no entry fee. There will be three prizes — Rs.1,000 (1st prize), Rs. 750 (2nd) and Rs. 500 (3rd). For details, contact Ph: 0821-4282050 or Mob: 98451-41050, according to a press release from the Foundation.

Appointed as President

M.V. Kumar of Sri Amrutheshwara Temple on Dewan's Road in city has been appointed as President of Mysuru District Unit of Akhila Karnataka Brahmana Archakara Mattu Purohitara Parishat, having head office at Bengaluru. Also, C.K. Manjunath, Founder-President of Sri Vijaya Mahaganapati Temple in Vijayanagar, has been appointed as Dist. General Secretary of the Parishat. The appointments were made by Parishat's State President Vidwan Vishweshwara Bhat and State Gen. Secretary Bhanuprakash Sharma of Srirangapatna, according to a press release from the Parishat.

Bandipur recognised for good tiger conservation

Among 14 Tiger Reserves in India to bag Global Conservation Assured Tiger Standards Accreditation

Mysuru, Aug. 3 (MTY&BCT)- The Bandipur Tiger Reserve has received the Global Conservation Assured Tiger Standards (CATS) accreditation for meeting a set of standards for effective conservation of big cats. An international group of experts and protected area managers have created the criteria.

In a statement, the Ministry of Environment and Forests said that out of 51 Tiger Reserves in India, 14 have got CATS accreditation. CATS is a globally accepted conservation tool that sets best practices and standards to manage tigers and assessments to benchmark progress.

Habitats which support tiger populations are the building blocks of wild tiger conservation and effectively managing them is essential for long-term survival of wild tigers. CATS is being implemented across 125 sites in seven tiger range countries and India has the highest 94 sites, out of which assessment was completed for 20 tiger reserves this year.

The accreditation has been granted to 14 reserves in India, one each in Nepal, Bhutan and Russia. The 14 reserves in India are Manas, Kaziranga and Orang (Assam); Sundarbans (West Bengal); Valmiki (Bihar); Dudhwa (Uttar Pradesh); Panna, Kanha, Satpuda and Pench (Madhya Pradesh); Anamalai and Mudumalai (Tamil Nadu); Parambikulam (Kerala) and Bandipur (Karnataka).

Union Environment Minister Bhupender Yadav said, all the

51 Tiger Reserves should try to achieve the status. "Tiger conservation involves saving the entire ecosystem, not just the tiger. Tiger is a symbol. Topography or tiger landscape and tiger corridors also need to be protected. Tigers also use international corridors with neighbouring countries. We should renew dialogues with these countries. Finally, public participation is very important and Forest Departments should recognise local conservation practices," he said.

"We have to be cautious about the impact of ecotourism. Ecotourism will increase but with improved sensitivity for nature," the Minister added.

Interestingly, the three most popular tiger reserves — Bandhavgarh, Corbett and Ranthambore — are not on the list of reserves that have been granted accreditation and one of the factors might be the highest tourist footfalls to the Tiger Reserves.

Bandipur Director reacts

Reacting on CATS accreditation, the Director of Bandipur Tiger Project S.R. Natesha told *Star of Mysore* that the recognition would enable Bandipur to procure funding from Global Tiger Fund, for conservation purposes.

S.R. Natesha

"It has been certified that Bandipur is meeting internationally set standards for the conservation of big cats in terms of environmental quality, the eco-system needed for tiger habitat, prey availability, man-tiger conflicts, health of the big cats and the management standards," he said.

There are other parameters like the documentation practiced in Bandipur about tigers, field visit data and recordings and as the documentation is perfect, Bandipur has got CATS recognition. "The exercise has been on since the last four to five months and a team had visited Bandipur to assess all the standard parameters," Natesha added.

Hanging bridge to come up at Harangi Dam

Expert inspects Reservoir; Rs. 3.5 crore project; DPR to be readied

Kushalnagar, Aug. 3 (RH& BCT)- To give a special view of Harangi Dam in Kodagu to thousands of tourists who flock the Dam, a hanging bridge will be constructed at a cost of Rs. 3.5 crore. The Harangi Dam is one of the many famous tourist spots of Kodagu and the hanging bridge proposal has been floated by Madikeri MLA M.P. Appachu Ranjan.

Recently, hanging bridge expert Patanjali Bharadwaj surveyed the Dam and inspected the area from where water is released from the Dam and the crest gates to identify the start and end points of the suspension foot bridge.

The MLA had directed Minor

Irrigation Department Assistant Executive Engineer Mahendra Kumar to prepare an action plan for the hanging bridge and accordingly, the Cauvery Neeravari Nigama Limited (CNNL) officials had prepared a plan for the hanging bridge about 300 metres away from the Reservoir.

Patanjali Bharadwaj took information about the maximum height of the Dam, the height of crest gates and the frequency of water release and other data from Mahendra Kumar. After the survey, Patanjali Bharadwaj said that a Detailed Project Report (DPR) will be submitted to the Department shortly.

For the record, Patanjali Bharadwaj is the son of *Padma Shri* Girish Bharadwaj, who is an industrious social entrepreneur, popularly known as the 'Bridge Man.' He has built more than 100 hanging bridges or suspension footbridges across India.

In 1975, he established his own "Rational Engineering Industries" at Sullia in Dakshina Kannada which is now called Ayasshilpa. His son Patanjali Bharadwaj runs the show now.

Two more arrested in SIM box fraud

Accused used to take houses on rent, route international voice calls as local calls

Mysuru, Aug. 3 (BCT)- Narasimharaja (NR) Police have arrested two persons who were involved in routing international calls as local calls and have seized various equipment used to route the calls illegally. Last month, the City Crime Branch (CCB) sleuths had busted a SIM box fraud and had arrested a Kerala-based man who was running an illegal telephone exchange at his house at Kamanakerehundi near Old Kesare here.

First, the CCB Police had arrested Shameem from Kerala who routed international voice calls made on Indian phone numbers using his illegal telecom set-up and thereby causing loss to the Government and telephone companies. Shameem bypassed the legal gateway and had bypassed International Subscriber Dialling (ISD) protocols and licences.

Based on the clues provided by Shameem, the N.R. Police now have arrested Ashraf and Jithin, also from Kerala for being a part of the racket. The arrests have revealed that there is an elaborate network of people who are running the illegal telephone exchange using the SIM box and Voice over Internet Protocol (VoIP) technology which helped them route international calls as local calls.

The modus operandi of the criminals is to take houses on rent, purchase the equipment related that will facilitate the illegal operations and also contact a dedicated network of customers. Equipment is usually purchased online or they are in touch with local technicians who are well-versed with the telephone and internet systems.

The accused who have been arrested now too took houses on rent at N.R. Mohalla, Yadavagiri and Kumbarakoppal to run the illegal racket. During the raid, the Cops seized 15 SIM boxes having 32 ports, 16 D-Link Wi-Fi Router with SIM slot and other equipment.

The Police said that the accused placed calls through VoIP and such calls are hard to trace and in turn can become a major security threat. Moreover, the callers cannot be identified.

Government doctor killed in road accident

Dr. Ravindran

Somwarpet, Aug. 3- A Government Hospital doctor was killed while his wife, son and sister sustained injuries, when the car in which they were travelling hit a roadside tree near Chilkunda village in Hunsur taluk yesterday afternoon.

The deceased is Dr. Ravindran (59), Medical Officer at Somwarpet Government Hospital in Kodagu and a resident of J.P. Nagar in Mysuru.

Dr. Ravindran, was on leave since 15 days following the demise of his mother. Yesterday, Dr. Ravindran, along with his wife, son and his sister left for Somwarpet from Mysuru in his Maruti 800 car to report to duty. While proceeding near Chilkunda village at about 1 pm, Dr. Ravindran, who was behind the wheels of the car, lost control of the vehicle, which rammed into a roadside tree. While Dr. Ravindran and his sister suffered serious injuries, his wife and son escaped with minor injuries. Though Dr. Ravindran and his sister were being rushed to a private hospital in Mysuru, Dr. Ravindran breathed his last mid way. His sister has been admitted to the hospital, where she is said to be out of danger.

Dr. Ravindran, who was serving at Gundlupet Govt. Hospital, was transferred to Somwarpet Govt. Hospital 8 months ago and was residing at the guest house along with his family.

Man goes missing

Mokthar

Mysuru, Aug. 3 (KS)- A 75-year-old man, who left his house on July 26 at about 9.30 pm, has since gone missing.

The missing person is Mokthar Ahmed, a resident of Kesare 3rd Stage. He is wheatish complexioned, oval faced, speaks Kannada and Hindi and was wearing a white shirt and black pant at the time of going missing. Those having any information about the missing person, may contact N.R. Police Station on Ph: 0821-2418312 or call Police Control Room on Ph: 0821-2418339, according to a press release.

Broken concrete pillar cleared

Then

Now

Mysuru, Aug. 3 (RK&SSV)- A broken concrete pillar at the main door of Mysore Medical College & Research Institute (MMC&RI) which had fallen over a month ago has been finally cleared.

The pillar was obstructing the movement of citizens. But the institute authorities had failed to clear it.

After the news under the title 'Broken pillar of MMC&RI gate troubles pedestrians' was published in *SOM* on July 28, the authorities became alert and removed the damaged pillar.

After the concrete pillar broke and fell, it was not possible to close the main gate. It is high time that a new pillar be built soon to close the main gate at least on public holidays and nights for security purpose.

Pathetic condition of Hebbal Industrial Area Ring Road's Service Road

Mysuru, Aug. 3 (RK&SSV)- The Service Road of Hebbal Industrial Area Ring Road is in a pathetic condition and has virtually become non-motorable due to slush everywhere.

Water stagnation and debris on the Ring Road's Service Road between J.K.Tyre and Asha Kirana Hospital has turned the road into a motocross road besides hampering the smooth flow of traffic.

Though this problem has been haunting motorists for the last two years, the MUDA, National Highways Authority of India (NHAI) or Karnataka Industrial Areas Development Board have not bothered to look into it.

Complaints registered in this regard by Hebbal Industrial Estate Manufacturers Association with NHAI, has not yielded any results. This road is used by hundreds of employees of many industries and mishaps happen daily. Citizens have appealed the authorities concerned get the road repaired at the earliest.

Appointment of Music Varsity VC

Submit documents of Search Committee: HC directs Govt.

Mysuru / Bengaluru, Aug. 3 (MK&SSV)- Karnataka High Court has directed the State Government to submit all documents including proceedings of Search Committee, related to the appointment of Vice-Chancellor (VC) of Mysuru-based Karnataka State Dr. Gangubai Hangal Music and Performing Arts University (Music University), held on Sept. 29, 2020.

A Public Interest Litigation (PIL), seeking cancellation of appointment of Dr. Nagesh V. Bettakote as the VC of the Music Varsity, has been filed by Sri Prasanna Vidya Ganapathi Mandali Charitable Trust, Mysuru.

When this petition came up before the Division Bench headed by Chief Justice Abhay Shreeniwas Oka yesterday, the Government was asked to produce all documents including the proceedings of the Search Committee before the Court and the Bench adjourned the case to Aug. 4.

It may be mentioned here that the Governor-Chancellor had appointed Dr. Nagesh Bettakote as the VC on Jan. 22, 2021.

However, the Trust contended that the appointment was illegal as Dr. Nagesh's name was not included in the list of Search Committee.

Footpath encroachment clearance drive yields Rs. 5,400 spot fines

Mysuru, Aug. 3 (KS)- Continuing their efforts to clear footpaths of encroachments to make was for pedestrians, the Mysuru City Traffic Police conducted a footpath encroachment clearance drive yesterday too at various places in city.

The drives were conducted by Devaraja, Krishnaraja, Narasimharaja, Siddarthanagar and V.V. Puram Traffic Police at Devaraj Urs Road 1st Cross, Krishnaraja Boulevard Road, Bengaluru-Nilgiri Road, Vinaya Marga, Male Mahadeshwara Road and Hootagalli KHB Colony Road and the Cops have registered 19 cases under Karnataka Police Act and 18 cases under Indian Motor Vehicle Act besides issuing 25 notices and collecting a total sum of Rs. 5,400 as spot fines.

Gyms still not 'fit' enough for patrons

Poor footfalls worry owners who depend on fitness centres for livelihood

Mysuru, Aug. 3 (YDS&BCT)- Gyms and fitness centres in city are yet to recover from the impact of the prolonged lockdown imposed due to the COVID-19 pandemic and poor response from patrons. Most of the gyms continue to witness poor footfalls as people are not yet confident of entering a gym for their regular exercises.

After two years of the pandemic where people spent months cooped up at home getting very little exercises, the trend continues and even now, people are not entering gyms despite gym owners taking enough precautions to curb the virus spread.

MORE PREFER ONLINE TRAINING

The trend now is to take online classes and move toward maintaining mental as well as physical health. More and more customers are shifting to online gym training mode and fitness freaks are scared to return to the actual gyms for pre-pandemic routines.

"COVID has accelerated online/in-person workouts that are offered by brick-and-mortar gyms. Fitness clubs and gyms are grappling with declining memberships," said a gym owner.

Most virtual workouts can be done via mobile phones or a laptop. Some are pre-recorded and allow for pausing or rewinding. Others are live-streamed, which helps mimic the experience of exercising with a group. People prefer this system now, he added.

"Many gyms that are owned by trainers have hefty loans on the building and expensive infrastructure. And there has been no business since the past two years. Despite taking all precautions, people are not coming back to gyms," President of Mysuru Gym and Fitness Centre Owners' Association M.S. Harsha told *Star of Mysore*.

A MAJOR BLOW

There are 250 gyms and fitness centres and there are over 3,000 families in Mysuru who depend on gyms for their livelihood and a minimum of Rs. 1 lakh to Rs. 10 lakh is required to maintain gyms every month depending on the size of the gyms and the equipment they have, he said.

"This is a major blow to the industry that has been struggling after the lockdown. The fitness industry has suffered the longest compared to other professions. Some of them will be forced to shut shop if the Government does not intervene," Harsha added.

"Till now, we had to incur all fixed costs such as rent, taxes, etc. We also paid salaries to our staff. But there was no revenue. We had to take loans to resume our business after lockdown and we are under huge financial burden at this stage. We were hoping for a good business but now even that hope is petering out," he said.

Other owners say that gyms have followed a long list of protocols to ensure safety of clients as well as employees. That is the reason why there is no case of gyms turning into hotspots anywhere. There have been no instances of violation of rules either. But still, the patrons are not coming, they regret.

"We are also part of COVID fight and are offering free one month training to Corona warriors like doctors, Police and journalists. This social initiative makes us happy too," Harsha added.

Tourist spots, temples out of bounds for weekend visitors

Ban orders will be in force till Aug. 15: Chamarajanagar DC

Chamarajanagar, Aug. 3 (SSV)- In the wake of steep rise in Corona positive cases in neighbouring Kerala, the District Administration of Chamarajanagar has banned the entry of visitors to all tourist places and temples during weekends as a precautionary measure.

Dr. M. R. Ravi

According to Deputy Commissioner Dr. M. R. Ravi, this order will be in force till Aug. 15 and issued in the safety of public health and safety. The tourist places which are out of bounds are Bharachukki, Hogenkal Falls, Wildlife safaris in Bandipur and K.Gudi in BRT Sanctuary on Saturdays and Sundays.

The RT-PCR test 'negative' report got done 72 hours before travel has been made mandatory for tourists who wish to stay in all resorts, lodges, home stays and cottages of Forest Department as well to participate in safaris.

With regard to temples, Dr. Ravi said Sri Male Mahadeshwara Temple will be opened for devotees only from Monday to Friday. There will not be any kind of *sevas, utsavas* or distribution of *theertha, prasada* and *mundan* ceremony (head tonsure). Priests are allowed to conduct regular pujas on Saturdays and Sundays without devotees.

He said all Government functions like inauguration, foundation laying and other programmes by all Departments are banned. Only 100 persons are allowed to attend marriages that too in strict observation of COVID Appropriate Behaviour and 20 persons for last rites.

Govt. pushing for simple celebrations of festivals

Bengaluru, Aug. 3 (KMS& SSV)- The State Government is mulling issuing necessary guidelines for simple celebrations of festivals in the coming days in the wake of possible third wave of COVID-19 pandemic.

Time and again the health experts are warning the Government to take necessary precautions to check the spreading of contagion such as avoiding crowding of people in public places. A similar warning has been issued for the coming festivals like Varamahalakshmi, Gowri-Ganesh and Sri Krishna Janmashtami to avoid what happened during the second wave.

Dr. C.N. Manjunath, Director, Sri Jayadeva Institute of Cardiovascular Sciences and Research, Bengaluru, who is also a Member of Karnataka State COVID Technical Advisory Committee, has warned that the festivals will become super-spreaders in case the Government allows crowding of people during the celebrations.

'Save Niranjana Mutt' campaign continues

RK Ashram committed for conservation of Niranjana Mutt

Mysuru, Aug. 3 (PM&DM)- The indefinite campaign launched by several Veerashaiva-Lingayat Associations last week urging the Government to save Niranjana Mutt located on Krishna Vilas Road in city, in its original form, continued for the fifth day today.

Meanwhile, Sri Ramakrishna (RK) Ashram, Mysuru, has said that it is committed for conservation of Niranjana Mutt and the Ashram had no intention of relocating the idol of Dakshinamurthy.

In a press release, M. Doreraju, a devotee of the Ashram and a retired Engineer of Archaeology and Heritage Department, said that Dakshinamurthy idol was located in an open space and a Veerashaiva community leader had suggested construction of a Mantapa for the idol, so that pujas can be performed under the Mantapa, instead of in the open. Also, the base of Dakshinamurthy idol was facing instability as the root of a huge tree nearby was growing fast. Besides, the idol has leaned towards a side as its foundation that was partially disturbed by the growth of tree roots. A Mutt devotee came forward to construct a Mantap for the idol by repairing the backside of the temple, Doreraju said.

Himself being a retired engineer from the Archaeology Department, he went to Mahabalipuram in Tamil Nadu, where he met a sculptor and asked him to construct a Mantap. As such, the Dakshinamurthy idol was just shifted by some distance in order to build a strong foundation for the idol at its original space. But Veerashiava community leaders have wrongly understood this and have launched a protest against RK Ashram, without bothering to hear our explanation and clarification, he said.

Reiterating that RK Ashram is totally committed for conserving Niranjana Mutt in its original form and also to undertake its renovation, Doreraju said that RK Ashram and Veerashaiva-Lingayat Mutts were like brothers serving the society and working for the welfare of everyone. When such is the case, it is unfortunate that Veerashaiva community leaders were making unfair and unfounded allegations that the Ashram was out to destroy the heritage nature and characteristics of Niranjana Mutt, Doreraju said in the press release.

'Prepare for third wave of COVID pandemic'

Former CM Siddharamaiah advises State Govt.

Bengaluru, Aug. 3 (KMS&SSV)- Former CM and Leader of Opposition in the State Legislative Assembly Siddharamaiah has said the prime duty of the State Government is ensure that the people are not put into hardship in the coming third wave of COVID-19 pandemic.

Talking to reporters here yesterday, he said the third wave was quite visible both in Maharashtra and Kerala with steep rise in Corona positive cases. Vigilance must be intensified at borders of these two States due to increase in arrival of people.

People from Kerala who enter Karnataka through coastal districts, Chamarajanagar, Mysuru and Kodagu must be medically examined before allowing them inside. Those who have not taken two doses of vaccine must not be allowed and such persons must undergo RT-PCR test, he said.

Siddharamaiah wanted the Government to keep ready hospitals, oxygen, ventilators and other medical emergency systems to treat patients. Without imposing lockdown and putting people into inconvenience, the Government must manage the situation. The number of Corona positive cases is nearing 2,000 and once it crosses that number it means the third wave has entered Karnataka, he cautioned.

Instead of concentrating on taking COVID preventive steps, the new Chief Minister Basavaraj Bommai was busy in Cabinet formation. "Where is the need for him to frequent Delhi. The BJP High Command must understand the current situation," the former CM stated.

EVMs are tamper-proof, says State Election Commissioner Vastrad

P.S. Vastrad

Mysuru, Aug. 3 (RK&SSV)- Electronic Voting Machines (EVMs) are safe and none can tamper it, clarified State Election Commissioner and retired IAS Officer P.S. Vastrad.

Addressing a meeting of District-Level Officers at Zilla Panchayat auditorium this morning, he asked the people not to fall prey to vilification campaign by some vested interests claiming that the EVMs could be misused to favour a particular party. This was totally false and baseless. Already, the Government of India has clarified that the EVMs cannot be tampered by anyone. This message needs to be percolated to villages where some people have doubts about it, he said.

Vastrad said help of High School students must be taken to create awareness among people on the importance of voting in democracy. Since online classes are going on due to closure of Schools, a brief programme on voting could be broadcast to create awareness. The help of Department of Public Instruction must be taken in this regard, he said.

Besides, literature on voting on YouTube and other social media could be shown for the sake of citizens, he noted.

Stressing on the importance of Voters' Awareness Forum, he said the Chief Executive Officer (CEO) of Zilla Panchayat will be the Chairman and Secretary will be Member-Secretary of this Forum. This platform could be used to conduct meetings and create voting awareness on enrolment of names, voting percentage, voting pattern among people.

A video on this could be put up in the Government website. In fact, Karnataka has been appreciated by many States for successfully conducting of elections, the Officer said.

Vastrad called upon officials to make use of technology on creating awareness among people and this will strengthen the country's democractic system.

ZP CEO A.M.Yogesh, DDPI Ramachandraraje Urs, Election-Tahsildhar at DC's Office Ramaprasad and others were present at the meeting.

Bommai calls on Venkaiah Naidu

Chief Minister Basavaraj Bommai, who is camping in New Delhi since Sunday evening, called on Vice-President M. Venkaiah Naidu at the Parliament House this morning. *[Pic. by M.M. Joshi]*

Bengaluru, Aug. 3 (UNI) - The BJP Central leadership, in discussion with State leaders including Chief Minister Basavaraj Bommai and Union Minister Prahlad Joshi, have worked out a formula of announcing the list of Ministers phase-wise to avoid possible revolt of senior party legislators who could be dropped from the yet-to-be formed Ministry. The Central leadership is expected to reveal the Ministers' list by today evening. The swearing-in ceremony is likely to take place tomorrow.

Party sources say that the Central leadership is expected to drop some of the legislators, who were in Yediyurappa's Cabinet, to make way for young legislators.

Good response to COWIN-KAR

(Continued from page 1)

Since the last three days, more than 350 vaccines have been administered to those beneficiaries who registered using COWIN-KAR and the number of registrations is only growing, District Health Officer Dr. K.H. Prasad told *Star of Mysore* this morning.

"While we cannot pin-point the exact number of downloads of the app, we are seeing registrations based on the eligibility criteria that is decided on the available slots and also the vaccine stocks," he said.

Slots are available and this is an easy-to-use method and people must make use of the facilities. A unique feature of the app is that beneficiaries who select vaccination centres of choice must produce address proof within the vicinity of the centre, he added.

"The COWIN-KAR app avoids all the glitches present in the CoWIN app (designed by the Union Health Ministry) and has been designed as a user-friendly dashboard. People must make use of this and vaccines will be doled out as per the slots. Once registered, the vaccine slot at any given vaccination centres within Mysuru city is ensured," Dr. Prasad said.

Once registered in *cowin.karnataka.gov.in* or through the downloaded app, the user will get an OTP that validates the mobile number and the user is taken to an interface next where the registration can be done. Up to four members of a family can be registered in one go in the app and the user is asked to submit details like name and ID proof.

Prioritising slots

The app also prioritises slots for frontline workers, second dose, age and people with co-morbidities. It enables people to easily register themselves and family members by just giving their location, preference for dates, occupation etc. The slots will be automatically assigned based on vaccine availability and the user will get intimation once a slot is allocated.

One reschedule is allowed for every user and the app will show dose completion details after vaccination. The user needs to use the same mobile number to register if they have already registered on the CoWIN platform, the DHO explained. If the pilot project is successful in Mysuru, the App will be extended to the entire State.

Devotees throng Hill Temple

(Continued from page 1)

Ashada is auspicious for many people and some even make vows that they would mandatorily visit the Temple during Ashada month especially Tuesdays and Fridays that are considered auspicious for Goddess of Shakthi.

As the ban is in force on Fridays and weekends, today people made use of the auspicious Tuesday to visit the Hill Temple. Rush was also seen near the Nandi Statue on the way to the Hill and at some points there were traffic snarls. Not only Mysureans but people from other places too visited the Temple.

Notably, many devotees who came to the Temple did not visit the sanctum sanctorum as strict social distancing measures were implemented inside. Many devotees prayed outside the Temple and returned home.

Today the weather too was pleasant and with no rain and hot sun, it was a memorable visit for many devotees who came early in the morning to see the mist-covered Temple.

As today is the auspicious last Tuesday of the Ashada month, many people celebrated 'Chamundi Habba' at several localities in the city where *prasadam* was distributed under pandals.

Writer Dr. D.S. Jayappa Gowda's felicitation volume released

Dr. D.S. Jayappa Gowda and his wife, who were honoured during a programme organised by Dr. DSJ Hitaishi Balaga at Sri Rama Mandira in Krishnamurthypuram on Saturday last to release the felicitation volume titled 'Jayasiri', are seen with District Kannada Sahitya Parishat Mysuru President Dr. Y.D. Rajanna, Parishat former President M. Chandrashekar, litterateurs Dr. S.L. Bhyrappa & Dr. C.P. Krishnakumar, Vangipura Mutt Seer Sri Ilai Alwar Swamiji, Parishat former President Maddikere Gopal, Kuvempu Bhasha Bharathi former Chairman Prof. Pradhan Gurudatta and others.

"Failing to propagate Swami Vivekananda and Sir M. Visvesvaraya's achievements is nothing but opposing nation's growth"

Mysuru, Aug. 3 (SPN&DM)- Maintaining that failing to propagate the preachings of Swami Vivekananda and achievements of Sir M. Visvesvaraya to the coming generation is akin to opposing the nation's growth, acclaimed writer and *Saraswati Samman* awardee Dr. S.L. Bhyrappa opined that people should shun such moves which impede the progress of the nation.

He was speaking after releasing writer Dr. D.S. Jayappa Gowda's (DSJ) felicitation volume titled 'Jayasiri' at a programme organised by Dr. DSJ Hitaishi Balaga at Sri Rama Mandira on New Kantharaj Urs Road in Krishnamurthypuram here on Saturday.

Noting that Jayappa Gowda chose Sir M. Visvesvaraya's contributions and achievements as Dewan of Mysore for his research studies, Dr. Bhyrappa alleged that, however, some intellectuals were falsely propagating that Sir MV had no role in the construction of KRS Dam and that he (Sir MV) was opposed to reservation.

Dr. Jayappa Gowda's work is a perfect answer to all those who are criticising Sir MV, he opined.

Asserting that Jayappa Gowda's work contains comprehensive information about Sir MV's achievements, he observed that the book can be translated into English.

Recalling the history behind the formation of Kannada Sahitya Parishat, Dr. Bhyrappa said that the representative body of Kannadigas came into being after Sir MV, who gave utmost prominence to Kannada in administrative matters, thought that an institution was needed for preparing a Kannada dictionary, Thesaurus and other books that contained the right administrative terms in Kannada. The then Mysore Maharaja too supported the idea and thus the Kannada Sahitya Parishat came into being, he pointed out.

Referring to the construction of Swami Vivekananda Memorial in Mysuru, Dr. Bhyrappa said that the city's Sri Ramakrishna Ashram has planned to construct the Memorial at the NTM School premises in the heart of the city, which is in fact, a matter of pride for all Mysureans. But some people were opposing the Memorial by bringing forward the NTM Kannada School into the picture, he regretted. However, the Karnataka High Court has ruled in favour of Sri Ramakrishna Ashram, he noted.

Asserting that Ramakrishna Ashram has exhaustively worked for Kannada, the veteran writer bemoaned that these individuals were talking of moving the Supreme Court claiming that NTM school has a heritage value.

Maintaining that Sri Ramakrishna Ashram has contributed a lot for the cause of Kannada, he lamented that some persons were speaking wrongly of the Ashram, without knowing it.

Strongly supporting the construction of the Memorial at the proposed site, Dr. Bhyrappa said that the Memorial, featuring a cultural and spiritual youth centre, will be a boon for the younger generation.

Pointing out some persons are criticising him, Dr. DeJaGow (now late) and Dr. C.P. Krishnakumar (CPK) for supporting the Ashram for construction of Viveka Memorial, he said that it is important to note here that the Ashram has published more than 450 books in Kannada, which is more than what a University can do.

Stating that Sri Ramakrishna Ashram had also influenced the life of Poet Laureate Kuvempu, he said that the Ashram has contributed a lot to the society by educating thousands of students over the years.

Recalling his own example, Dr. Bhyrappa said, "My son was too mischievous in his childhood days. So I sent him to Mysuru Ramakrishna Ashram for studies. After studying and learning at the Ashram, my son completely changed his attitude and grew into a responsible citizen. Such is the 'Samskara' that the Ashram teaches to students."

Reiterating that the place where Swami Vivekananda stayed in Mysuru is the right spot for the construction of the Memorial, he opined that there was no substance in the opposition to the construction of the Memorial, when the Government itself is supportive of it.

Dr. D.S. Jayappa Gowda couple were honoured on the occasion. Vangipura Mutt Seer Sri Ilai Alwar Swamiji graced the occasion. Writer H.M. Nagarajrao spoke about the book. Dr. CPK presided.

Former Chairman of Kuvempu Bhasha Bharathi Prof. Pradhan Gurudatta, District Kannada Sahitya Parishat Mysuru President Dr. Y.D. Rajanna, former Presidents of District Kannada Sahitya Parishat M. Chandrashekar and Maddikere Gopal, Mysuru Ranganath and Dr. MGR Urs were present.

Virtual workshop on Intellectual Property Rights held

Prof. Shivappa

Mysuru, Aug. 3- "Intellectual Property helps every creative person to convey their new ideas and inventions to the world. **Intellectual Property Rights (IPR)** of a person is complemented and respected and the global development is possible because of innovations and research," opined Prof. R. Shivappa, Registrar, University of Mysore (UoM), Mysuru.

He was speaking as the chief guest of virtual workshop on 'The Significance of Intellectual Property Rights' organised by the IQAC under the auspices of JSS College of Arts, Commerce and Science on Ooty Road in city recently.

In his inaugural address, Prof. Shivappa felt, "The research and innovations are a continuous process that will change according to the needs of time and of use to the society."

"Any Intellectual Property that is not covered by RTI cannot be adequately utilised. Intellectual Property Rights can help new ideas to develop and help the researcher/ innovator to share his intellectual wealth to the world. This will help the country to develop economically. Similarly, it helps the researcher to grow economically and to get an exposure of his knowledge. This gives recognition not only to the individual but to the nation at global level," he said.

He also felt that respecting the opinions of the individual is a true humanity that in turn protects humanity.

Prof. B.V. Sambashivaiah, the Chief Executive of the College, who presided over the programme, said that the problems and developments go hand in hand with the course of human development.

"There are many new problems in the world today. Those problems can only be tackled effectively by new inventions and researches. In that context, Intellectual Property Rights is essential for the development of research and innovation. Intellectual Property Rights alone can protect our intellectual thinking and thereby help the growth of the world," he added.

Two technical sessions followed the inaugural function.

Prof. Bheemesh, Senior Advisor, ALMT Legal, Honorary Director, NIALS, Bengaluru, spoke on 'Unleashing Creativity and Demystifying Intellectual Property Rights' in the first technical session.

In the second technical session, Rakesh Prabhu (Patent Agent and Partner), ALMT Legal, Bengaluru, gave a lecture on 'Patent to Boost Innovation' at the commencement of the programme.

Principal Dr. H.C. Honnappa welcomed. Dr. N. Rajendra Prasad compered and proposed a vote of thanks. Yashasvini, a IV Sem M.Sc student, rendered invocation.

Trust felicitates woman porter Rizwana Banu

Mysuru, Aug. 3 (KS)- The Mysore Old Age Home Charitable Trust at Kalyanagiri felicitated Rizwana Banu, the only woman porter at Mysuru Railway Station, recently.

Founder-President of the Trust Sheikh Maqsood Hussain, who felicitated Rizwana with a shawl and garland, presented Rs. 22,000 cash and ration kit while Thaseena provided a ration kit and clothes.

The programme began with recital of verses from the Holy Quran by Joint Secretary of Trust Ameen. Dr. Bushra Begum spoke about the life of Rizwana.

Trust Secretary Syed Mohd. Kamran, Treasurer Basheeruddin, Dr. Bushra Begum, Talath Ameen, Organising Secretary of Masjid-e-Moula Hussain Khwaja Mohammed Musheer Chishti, social worker Majid Toufiq Khan Saheb and others were present.

Go.Ru.Cha Endowment Awards presented to eight achievers

Mysuru, Aug. 3 (PM&DM)- Eight achievers in the fields of Sharana Sahitya, Culture and Folklore were conferred with the prestigious Go.Ru.Cha Endowment Award at a programme organised by Akhila Bharatha Sharana Sahitya Parishat at JSS Women's College in Saraswathipuram here on Sunday.

Go.Ru.Cha Sharana Award was presented to Dr. C. Veeranna of Hanabe in Doddaballapur taluk of Bengaluru Rural district and Dr. Basavaraj Sadara of Kundagol in Dharwad district for the year 2019 and 2020 respectively. **Go.Ru.Cha Folk Award** was presented to Dr. B.S. Swamy of Madhuvanahalli in Kollegal taluk of Chamarajanagar district and Dr. H.T. Pothe of Hanjagi in Indi taluk of Vijayapura district. **Go.Ru.Cha Sharana Sahitya Literary Award** was presented to Prof. B.R. Police Patil of Herur in Vijayapura district and Dr. Basavaraj Sabarad of Kukanur in Koppal district and **Go.Ru.Cha Folk Literary Award** was presented to P.D. Walikar of Lakkasakoppa in Badami taluk of Bagalkot district and Dr. Kuruva Basavaraj of Kuruva village in Honnali Taluk of Davanagere district.

Three awardees — B.S. Swamy, Basavaraj Sadara and Basavaraj Sabarad — were absent due to illness. However, Vinay, grandson of B.S. Swamy received the award on behalf of his grandfather.

The Go.Ru.Cha Sharana and Folklore Awards carry a cash prize of Rs.25,000 each, while Go.Ru.Cha Literary Awards carry a cash prize of Rs.10,000.

Suttur Seer Sri Shivarathri Deshikendra Swamiji, who graced the occasion, said that Go.Ru. Channabasappa had done a lot for the growth of Akhila Bharatha Sharana Sahitya Parishat. Noting that Channabasappa was actively engaged in social and cultural activities, he said that though Channabasappa's services was initially limited to Bengaluru, it later expanded to other parts of the State, resulting in the progress of Kannada Sahitya Parishat, Janapada Academy and Sharana Sahitya Parishat.

Padma Awards

Referring to Prime Minister's appeal to citizens for recommending names of achievers for the prestigious Padma (Padma Bhushan, Padma Shri and Padma Vibhushan) awards, the Seer said that innumerable number of recommendations would come from all parts of the country and wondered how all these will be classified and scrutinised in detail before selecting the awardees.

Senior Writer Prof. Maleyuru Guruswamy, who delivered the felicitation address, said that the number of prizes right from the local level to the national level is increasing by the year. He observed that the increasing number of prizes will lead to formation of two groups — one is those who 'take' and the other who are 'accorded'— meaning that those who take, will use their influence to get the prize, while those who are accorded will get the prize for their outstanding achievement.

Highlighting the achievements of awardees, Guruswamy said that Dr. B.S. Swamy had written more than 350 books and he is the first person to get a Doctoral Degree (Ph.D) on Male Mahadeshwara Swamy. Dr. C. Veeranna has written many books on 'Vachana Chaluvali,' while Prof. B.R. Police Patil, though an English M.A. Degree holder, has contributed a lot for Kannada literature, P.D. Walikar, a nature lover, has written a popular book titled 'Male-Bele,' Dr. H.T. Pothe, a Kannada Professor at Gulbarga University has written many books on Dr. B.R. Ambedkar and more than 12 books on Sharana Sahitya and Dr. Kuruva Basavaraj has scripted many books on Folklore, including his popular work titled 'Janapada Samvedane.'

'Basavarajs galore'

Dr. Thontada Siddarama Swamiji in a lighter vein said that persons having the name Basavaraj have bagged more prizes this time. Pointing out that even our new Chief Minister is Basavaraj Bommai, he said that perhaps, it is a good time currently for all persons who bear the name Basavaraj. Even the name of Legislative Council Chairman is Basavaraj Horatti, he added.

Recalling the efforts of late Dr. Sri Shivarathri Rajendra Swamiji in the establishment of Akhila Bharatha Sharana Sahitya Parishat, he said it was established with the objective of promoting more books on Sharana and Vachana Sahitya.

Veteran scholar Go.Ru. Channabasappa (Go.Ru.Cha) said that the awards presentation was pending for two years due to COVID and now they have been presented at Mysuru the Cultural Capital of the State.

Asserting that all the awardees were closely known to him, he said that the pandemic has made lives of people miserable across the globe. He was happy that the awards were successfully presented to the achievers braving all odds in the times of deadly pandemic, he added.

Flood water ravages paddy fields

Suttur, Aug. 3 (SSV)- Ready-to-harvest paddy is rotting in fields due to floods following huge discharge of water into Kapila River from the Kabini Dam.

Paddy crops in Suttur, Hosakote, Kupparavalli, Nagarle, Bilugale and Thayur villages have started rotting due to flooding. These villages are located on the side of Kabini River and come under Varuna Assembly Constituency.

Farmers are disappointed as the crop has been destroyed. "Life of farmers will only improve if the State Government announces crop compensation immediately," said Nanjundaswamy, a farmer leader.

There are also reports of the standing crop being destroyed due to excess water in Hullahalli and Rampura Canal due to continuous rains. This has resulted in fodder scarcity. The District Administration must open the fodder bank, he added.

620 Government employees receive COVID vaccination

Mysuru, Aug. 3 (RKB&AK)- A total of 620 Government employees including their family members were administered with COVID vaccine at a drive organised by Karnataka State Government Employees Association at its District Unit Office on Dhanvanthri Road on Sunday.

Speaking after launching the vaccine drive, Mysuru-Kodagu MP Pratap Simha said, "Vaccination drive was taking place across the country. Prime Minister Narendra Modi is very much concerned towards protecting the health of every citizen and has directed officials concerned to administer vaccine to every citizen of this country."

Association President G. Govindaraju said, "620 members received vaccination on the first day of the drive, which will continue and the next date of vaccination drive will be announced soon."

Association General Secretary Revanna, Members C.S. Ramesh Kumar, D. Anand, S.J. Ramesh, Varadaraju, Malangi Suresh, Raghu, H.M. Girish, Revanna Vasanth, S. Somanna, D.C. Lokesh, R. Balakrishna, M.M. Rathi, Prema Pinto, B. Lalitha, Retired Employees Association President B.R. Umakanth and others were present.

Vaccination drives held in city

Vaccination drives were held at various places across the city too in which MP Pratap Simha took part.

The vaccine drive for Pourakarmikas and Safai Karmacharis was held at Navodaya Layout in J.P. Nagar Second Stage, near Hebbal Industrial Area.

Later, MP Simha visited CITB Choultry in Kurubarahalli and distributed food kits to the families affected by COVID-19.

Fund to renovate mini auditorium sought

Meanwhile, the State Government Employees Association has submitted a memorandum to the MP requesting Rs. 10 lakh fund to take up renovation works of the mini auditorium.

Association President J. Govindaraju, who handed over the memorandum to the MP, told him (Simha) to provide the fund for the renovation of auditorium, as it would help the Association to conduct cultural events for public. Association General Secretary Revanna and members were present.

WORD OF THE DAY

Expropriate

Pronunciation: ek-SPROH-pree-ayt.
Meaning: To deprive of possession or proprietary rights; to transfer (the property of another) to one's own possession.
Origin: If you guessed that expropriate has something in common with the verb appropriate, you're right. Both words ultimately derive from the Latin adjective proprius, meaning "own." Expropriate came to English by way of the Medieval Latin verb expropriare, itself from Latin ex- ("out of" or "from") and proprius. Appropriate descends from Late Latin appropriare, which joins proprius and Latin ad- ("to" or "toward"). Both the verb appropriate ("to take possession of" or "to set aside for a particular use") and the adjective appropriate ("fitting" or "suitable") have been with us since the 15th century, and expropriate was officially appropriated in the 17th century. Other proprius descendants in English include proper and property.
Example: The city council rejected a proposal to expropriate private property for the highway expansion.

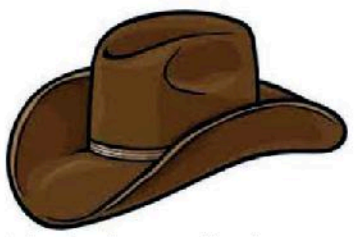
THE ODD WORD

Eccaleobion

Incubator.

PHRASE OF THE DAY

Eat my hat



Meaning: Expresses how a person feels almost sure of something. In other words, when someone feels confident in a specific outcome, they might use sayings like this to express that.
Origin: The phrase is obviously not a literal one but shows that someone is so confident in a particular outcome that they are willing to eat their own hat if it goes in any other way. In 1797, it has first been used by Thomas Brydge in the exact sense that the phrase is currently being used. Next the phrase was seen in 1837 used by Charles Dickens in 'The Pickwick Papers'. This version was slightly longer with the phrase reading "I'd eat my hat and swallow the buckle whole."
Another speculation for the origin is from the word hates which meant small meat pies. In 1988, Constance Hieatt wrote 'An Ordinance of Pottage' which states that small pastries that are filled with meat that looked like hats.

QUOTE BOX

Money and success don't change people; they merely amplify what is already there. — **Will Smith**

RIDDLE THIS

Solve the rebus

Answer : Too many cooks spoil the broth.

CROSS WORD

ACROSS:
1 Liberal, abbr.
4 To give up

Sudoku is a number-placing puzzle based on a 9x9 grid with several given numbers. The object is to place the numbers 1 to 9 in the empty squares so that each row, each column and each 3x3 box contains the same number only once. The difficulty level of the Concept is Sudoku increases from Monday to Sunday.

CRYPTOQUIP

The Cryptoquip is a substitution cipher in which one letter stands for another. If you think that X equals O, it will equal O throughout the puzzle. Single letters, short words and words using an apostrophe give you clues to locating vowels. Solution is by trial and error.

TOKYO GAMES 2020 (July 23 - August 8, 2021)

India hockey men to play for bronze

Lose to Belgium 2-5 in semifinals

Manpreet Singh of India in action against Nicolas De Kerpel of Belgium at Oi Hockey Stadium in Tokyo, Japan, this morning. [Pic: Internet]

Tokyo, Aug. 3- India suffered a heartbreaking loss to Belgium in the men's hockey semi-final as they lost 2-5 this morning in the Tokyo Games.

India will now compete in the bronze medal against either Australia or Germany who will face-off in the second semi-final later in the day.

India conceded early in the first quarter as Belgium converted a penalty corner to take the lead in the second minute. India ended the first half well as they fought back to take 2-1 lead after the first 15 minutes of the contest. Mandeep Singh and Harmanpreet Singh scored the goals for India.

Belgium, number two in world rankings, equalised in the second quarter thanks to Alexander Hendrickx's strike.

The third quarter ended goalless but Belgium proved to be too good on the day as they scored three goals in the final 15 minutes of the semi-final clash to book their place in the final of the Tokyo Olympics.

On the other hand, India women hockey team will take on Argentina in the semifinals tomorrow (Aug. 4) at 3.30 pm (IST).

Kamalpreet Kaur finishes 6th in women's discus throw final

Discus thrower Kamalpreet Kaur in action at Tokyo Games. [Pic: Internet]

Tokyo, Aug. 3- Discus thrower Kamalpreet Kaur finished a creditable sixth in her first Olympics with a best throw of 63.70m in a rain-interrupted final yesterday.

The 25-year-old Kaur, who qualified for the final as the second best on Saturday, was never in the running for a medal in the final event which was interrupted by rain for more than an hour. She had a third round throw of 63.70m to end at sixth and equal 2010 Commonwealth Games gold medallist Krishna Poonia's performance in the 2012 London Olympics.

Throughout the competition, Kaur, who was without her personal coach, looked nervous and short of confidence as she lacked international exposure. She has taken part in World University Games in 2017, her lone international competition.

A farmer's daughter at Punjab's Kabarwala village, Kaur had raised hopes of India's elusive athletics medal after finishing second in the qualification round on Saturday with a best throw of 64m.

American Valarie Allman took the gold with a first round throw of 68.98m while Kristin Pudenz (66.86m) of Germany and reigning World Champion Yaime Perez (65.72m) of Cuba won the silver and bronze respectively.

Two-time defending Champion Sandra Perkovic of Croatia was fourth with a best throw of 65.01m.

Tokyo Olympics 2020 Medal Count

Rank	Country	Gold	Silver	Bronze	Total
1	China	29	18	16	63
2	USA	22	27	17	66
3	Japan	18	6	10	34
63	India	0	1	1	2
